HAGUE CONFERENCE.

LIMITATION OF ARMAMENTS.

MERELY PLATONIC SYMPATHY.

GERMAN RIDICULE.

LONDON, Aug. 19.

At the plenary sitting of the International Conference at the Hague on Saturday, Sir Edward Grey, in moving his resolution that the conference report be adopted, said that the conference had been a success, and that the limitation of armaments was only a preliminary step towards the goal of universal peace. (The Times.)

Mr. J. H. Choate (United States) and Mr. Bourgeois (France) warmly supported the speech of Sir Edward Grey.

M. Neldoff (Russia), president of the conference, applauded the initiative taken in the matter by the British Government, and said that the conference was a success, and that the limitation of armaments was only a preliminary step towards the goal of universal peace. (The Times.)

The British resolution, M. Neldoff continued, corresponded with the present state of the question, and with the interest which all nations had in the subject. He said that the conference was a success, and that the limitation of armaments was only a preliminary step towards the goal of universal peace. (The Times.)

The French press regards the adoption of the resolution as merely a piece of international politeness.

The German press laughs at the proposal.

Mr. Edward Grey announced that the International Conference had agreed to declare that it was not in favour of the limitation of armaments, and that it was in favour of the limitation of armaments. (The Times.)

PLAGUE IN INDIA.

SOME MEASURES TO COMBAT.

CAMPAIGN AGAINST RATS.

CARE FOR POPULAR PREJUDICES.

LONDON, Aug. 19.

The Indian Government states that the plague Commission has decided that the plague is spread by rats, and that the vehicle of contagion is the rat flea, and that the life of plague germs in soil, floors, and walls is of short duration.

The Government recommends the destruction of rats, the improvement in the construction of houses, the protection of grain stores in order to reduce the food of rats, the removal of people to temporary dwellings, and inoculation. At the same time the Central Government recommends the provincial Governments to avoid actions calculated to excite popular opposition to any measures which may be taken.

The King, in a personal letter to the Earl of Minto, Governor-General of India, expressed anxious concern at the progress of the plague in India, and stated that he was deeply moved when he thought of the misery endured by his Indian subjects in such silent patience. He earnestly prayed that the further measures of the Government would prove successful in combating the scourge.

The Earl of Minto, in communicating the sympathy of the King to the public, explained that the enormous difficulty in eradicating the scourge was largely owing to the people's inability to understand sanitary and hygienic measures. The Governor-General adds that the leading principle of the plague campaign is that the people must work out their own salvation, as the Government cannot insist upon the acceptance of its ideas on modern hygiene.

The direct number of deaths caused by plague in India in the last 12 months has been 1,000,000. The plague has been spreading in India, and the Government is taking measures to combat it.

TO SUBDUDE MOROCCO.

ENERGETIC ACTION URGED.

FRENCH RIGHTS.

LONDON, Aug. 19.

M. Hanotaux, a former Foreign Minister, writing to the "Revue Diplomatique," advises France to act energetically in Morocco, and to defend her rights and duties.

M. Hanotaux states he is convinced that if she does so she will encounter no serious opposition from other Powers on the Continent.

A BLACK OUTLOOK.

FLIGHT OF EUROPEANS.

FIGHTING EXPECTED AT CARABLANCA.

LONDON, Aug. 19.

Europeans have evacuated Moroccan warships. A Jihad (holy war) is being preached in many places in the interior.

Spain and France have come to a complete agreement regarding the combined military action.

Only five thousand people remain in the Moroccan cities. French troops are encamped one mile eastward of the town. Five hundred Spanish troops are at Casablanca, and 1000 more are expected. The Moors are gathering in the vicinity, and apparently a fight is impending.

The above appeared in yesterday's second edition.

VENESUELAN FRONTIER DISPUTE.

BRITISH FORCE OVER THE BORDER.

LONDON, Aug. 19.

Captain Calder, commanding the force on the British Guiana frontier, crossed the border near the Barima River, and compelled Venezuelans at the point of the border to surrender 4000 pounds of balata (a species of rubber), said to have been obtained by the Venezuelans at the expense of the British.

The Venezuelan Consul at Georgetown has protested against this "armed invasion of Venezuelan territory."

THE FOOTBALL CRISIS.

N.S.W. RUGBY UNION.

MEETING OF THE COUNCIL.

METROPOLITAN UNION TO DEAL WITH PROFESSIONALISM.

A meeting of the council of the N.S.W. Rugby Union was held last night. Mr. J. F. Macnamara presided. It was anticipated that the council would deal with the professional players who were to play in the New Zealand professional team last Saturday.

The council decided to take action against the professional players, and to refuse to allow any player to stand under the name of the N.S.W. Rugby Union.

The council also decided to take action against the professional players, and to refuse to allow any player to stand under the name of the N.S.W. Rugby Union.

FIRE IN THE CITY.

A MIDNIGHT BLAZE.

BIG WAREHOUSE DESTROYED.

EXPLOSIONS OF GUNPOWDER.

Shortly before 12 o'clock last night a fire broke out in a building in Sussex-street occupied by Turner and Co., wine and spirit merchants, and hereof define her rights and duties.

M. Hanotaux states he is convinced that if she does so she will encounter no serious opposition from other Powers on the Continent.

At 11.45 the Metropolitan Fire Brigade received a message stating that there was a fire on the second floor of No. 105 Sussex-street, and that it was showing up the sky.

Superintendent Webb immediately ordered the whole of the city stations, and before many minutes there was a good force of firemen on the spot.

On arrival it was seen that the flames had a good hold on the building, and were shooting from the first and second floor windows.

A couple of hoses were got to work from the roadway in Sussex-street, but they made but little apparent difference. After a few minutes the large ladders arrived, and then the fire was brought under control.

The fire was extinguished, and the building was found to be a warehouse for gunpowder. The fire was caused by an explosion of gunpowder.

The fire was extinguished, and the building was found to be a warehouse for gunpowder. The fire was caused by an explosion of gunpowder.

WRECK OF THE DUNBAR.

FIFTIETH ANNIVERSARY.

STORY OF A GREAT MARITIME DISASTER.

LONDON, Aug. 19.

The Dunbar was wrecked 50 years ago today. Of all those who were present at that dreadful scene, only one is left—Mr. J. H. Choate, who was a young man named Westphalen in the southern train on Saturday, furnished a graphic account of the encounter when seen yesterday by a "Herald" reporter.

Mr. Kent, who is now an architect of the Queen Victoria Hotel for Convalescents, was returning by the midday train from Thirlemore. There were six occupants of the carriage, and Mr. Kent was sitting next to the window. He was looking out of the window when the train was struck by the Dunbar.

The exact cause was, however, made apparent as the train dashed out of the tunnel. The carriage was a scene of confusion, and the passengers were scattered in all directions. Mr. Kent was one of the few who escaped.

The magnificent clipper Dunbar left Plymouth on May 31, 1857, for Sydney, with cargo estimated at £75,000, and right up to the moment of the catastrophe had had a prosperous voyage, no sickness being recorded.

THE "HERALD'S" REPORT.

The report of the "Sydney Morning Herald" of Saturday, August 22, 1857, contained the following:

Sydney was yesterday thrown into a state of great anxiety and alarm by the report that during the previous night a large ship, with a considerable number of passengers, had been wrecked on the rocks off the Heads. The first information was communicated by a small boat which had been sent to the wreck.

It was stated that the ship was a clipper named the Dunbar, and that it was carrying a large number of passengers. The ship was wrecked on the rocks off the Heads, and the passengers were scattered in all directions.

The ship was a clipper named the Dunbar, and it was carrying a large number of passengers. The ship was wrecked on the rocks off the Heads, and the passengers were scattered in all directions.
